

RIDESHARE^{TO} WORK MONTH

October 2009

SHARE THE RIDE

Rideshare to Work Month 2009 iPhone Winners!

Erin Schaffer – Cima Labs

“You have nothing to lose by carpooling. If every person carpoled with one other person, not only would it be better for the environment, but there would be half as many cars on our busy Minneapolis highways. Thank you for the iPhone!”

Mike Lemke – NorthMarq

“My wife and I carpool whenever our schedules allow so it definitely helps save on weekly expenses. Beyond that is the obvious environmental impact carpooling provides as well. I’m happy to do my part!”

Heather Fraley – Best Buy

“Carpooling has many great benefits, like winning a free iPhone!”

Christopher Zenk – Schwans

“My wife and I started carpooling back when gas was \$4.00 per gallon and we have continued to this day. It helps reduce the wear and tear on our cars and also saves us money.”

Nikki Lawrence – United Health Group

“I accessed the 494 Commuter Services website and was pleasantly surprised how user friendly and informative the site was . . . The site presented two potential matches for me to review for compatibility. I will be sure to revisit the site for more potential opportunities to carpool.”
